PRIPLAK® EASY REFERENCE GUIDE

PRIPLAK® IS THE INDUSTRY STANDARD FOR STRONG YET FLEXIBLE POLYPROPYLENE SHEETS. IDEAL FOR POINT OF SALE (POS), COMMUNICATION, PACKAGING, LABELLING AND STATIONERY, PRIPLAK® CAN BE CONVERTED IN MANY WAYS. IT IS LOVED BY DESIGNERS AND PRINTERS FOR ITS WIDE VARIETY OF COLOURS, FINISHES, THICKNESSES, SIZES AND APPLICATIONS INCLUDING DOUBLE SIDED POS PRINTING (IZILYSS OPAQUE) AND BACKLIT FOR LIGHTBOXES.

PRIPLAK® is an environmentally sound plastic

Polypropylene offers many advantages due to its composition. It is a polyolefin and doesn't contain any halogens or chlorine.

It is also free from any plastifiers, such as phthalates, which are often used in the production of PVC.

After finishing with a product made from Priplak®, the material can be recycled, burnt or added to landfill, without any risk of toxic substances harming the environment.

Key Features

- 100% Recyclable
- Easily printable (Corona treated both sides) Screen, UV Litho, UV Digital (test print recommended)
- High strength, low density (excellent yield up to 35% lighter than PVC)
- Can be rolled up and delivered in tubes
- Cuts and creases (similar to carton board)
- Suitable for foil blocking, riveting and stitching
- Suitable for welding (hot air and ultrasonic)
- Can be glued, using specific adhesives (PUR hot melts, especially formulated for PP)
- Resistance to dirt and chemicals
- Wide temperature tolerance
- Low minimum order quantity for specialities: 500kg

Additional information

At the time of production, the surface energy is above 46 dynes/cm - but this declines over time.

We recommend that Priplak® is printed within six months from the date of production for embossed grades and three months for gloss products.

Priplak® recommend using inks that are specifically formulated for polypropylene. For more information please contact your ink supplier. Trial / test runs are always advised.
